FOREWORD

Once again it is my privilege to express our heartfelt thanks for your many valued orders and kind comments on the quality of the blooms received from our bulbs. It is pleasing to know that our efforts which are aimed at satisfied customers are meeting with so much success. We are always glad to hear from you — your words of praise are one of the satisfactions of being in business. But if in any way you are not fully satisfied, we are most anxious to know that too — only then are we able to rectify our shortcomings and give you full satisfaction.

The past growing was one of the finest we have ever experienced with adequate rainfall interspersed with periods of full warm sunshine. This enabled us to harvest one of our finest crops of bulbs ever — which will, of course, be of advantage to all of you who order from us this spring.

We have added many new varieties to our list and believe they are improvements on existing varieties. These are selected from the hundreds of varieties grown in our trial gardens from which only a comparatively few are chosen to enter our listing. We do not claim to grow all the meritorious varieties, but we feel sure that our catalog contains a most comprehensive listing of exhibition winners, the most popular commercials, and the most promising novelties for the home gardener. Our motto has always been — only the best is good enough.

Sincerely,

ARTHUR ARENIUS

SHIPPING DATES — Unless otherwise requested retail orders will be sent out between March 15 and April 15 in the order received. Wholesale orders will be shipped out as soon as possible after receiving them. *Order early so as to be sure we are not sold out of the varieties you want.* This also gives us more time to fill your order with less chance of error and less overtime.

BULB SIZES — The retail list contains three sizes —

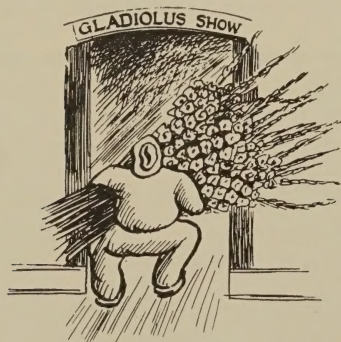

Large, $1\frac{1}{4}$ " up

Medium, $\frac{3}{4}$ " - $1\frac{1}{4}$ "

Small, $\frac{3}{8}$ " - $\frac{3}{4}$ "

Large size bulbs give the largest bloom. However, medium sized bulbs will give excellent spikes about 75% as large. Most small bulbs will bloom and at the same time grow fine bulbs for the following year.

VARIETY LISTING — In the descriptive list the variety name is given first, followed by the originator's name, its show classification and the approximate number of days needed for it to bloom. We have attempted to give a description of the varieties as we see them, listing important faults as well as good points.

A Connecticut customer writes:

We had many compliments on our lovely glads from you. We take them to the sick and shut-ins and they are always pleased with the variety.

From Mr. Tremmer, N. Y.

Mrs. G. S. O'M., Farmington, Conn.

This past spring I planted Arenius Glads for the first time. I feel that a note of thanks is now in order. To say that I was well pleased is an understatement. We, here in the Catskills, had a very poor growing year. I ordered practically all medium corms and they ended up blooming beautifully. The 500 florist Mixture is a grand selection and I plan on ordering considerably larger in the spring.

Mr. N. S. W.

From Rockport, Ill.

Won a couple of section Champs with your PINK PRIDE last fall.

Favorites of 1959

Here are eight lists of varieties representing each person's favorites as they saw them last year. The first lists are the favorites among the recent introductions while the second lists are the favorites among the standard low priced varieties. Mrs. Arenius and Helen (Mrs. Art, Jr.) both have seen all the varieties in our field as well as at many shows so are well qualified to comment. They have the added advantage of liking a glad because to them it is the most beautiful without the influence of statistics such as size, number open, number of buds, height, etc.

Appraising the Newer Ones

An excellent growing season was experienced this past summer enabling us to evaluate the many fine new varieties in our trial garden and pick out the best to add to our list. These we feel are fine additions and will rate among the leading varieties of tomorrow.

Our own GLACIER continues to impress us as the best all around white we have ever grown and our florists want it ahead of all other glads. For the cut flower grower WHITE FRIENDSHIP is becoming widely grown particularly for early blooms. Other fine white glads are SNOW VELVET with its fine show spikes, as well as ICE FOLLIES and PEGGY WHITE. FLORENCE NIGHTINGALE, SIERRA SNOW, and PROF. GOUDRIAAN continue to be cut by the thousands for our cut flower trade.

The whites with conspicuous throats continue to have many fine varieties such as WHITE SAILS, the grand champion contender as well as a good cut flower, SHOT the most boldly blotched and SPARKLING EYES the purple throated beauty. Also good are dependable WHITE TOWER, formal QUEEN ANNE and the delightful little spikes of QUEENS PAGE.

In the new green class are GREEN ICE a delicate shade of pale green on tall straight spikes, CHARTREUSE a greenish yellow that is very popular and early blooming SHAMROCK. Also of note are the green toned varieties ERIN, GREENLAND and LARGO although they are not officially classified in this group.

LORELEI now leads the cream colored glads for all uses but should be challenged by the new All America variety LANDMARK as well as RIXEY a grand grower of big exhibition spikes. Also good are ARES the leading 300 size variety of this color, PARTY RUFFLES with its intense ruffling and delicate coloring, gorgeous ANGELS SERENADE, and smooth colored JUBILEE.

Our own YELLOW SPIRE has already gained the reputation of being of grand champion quality and is giving tough competition to PROSPECTOR the present leader. Among our favorites are D'ANTAGNON, ruffled and greenish GOLD BANK, tall GOLD BRAID, and PEACELIGHT.

Tall and stately GOLDEN SUNSHINE continues to give us 5' spikes with 8-9 open florets of rich deep yellow, while GOLDEN BOY is the leading 300 size show variety. CORONADO is one of our finest cut flowers along with FORT KNOX a favorite with our florists and CONRAD a fine replacement for the older Spotlight. CATHERINE BEATH has the most intense color of the deep yellow glads while LIL ABNER is a favorite of the miniature fans.

A fine addition to the buff colors is RIVIERA a tall stately grower. Smooth colored VIVA is one of our best spike makers and is giving stiff competition to giant sized A. B. COUTTS and PATROL the present leader of this group. Also fine are two toned GOLDEN PALOMINO and PACTOLUS a topnotch early cut flower.

The orange colored glads present a dazzling array of color with FORTUNE the brightest of them all and a good spikemaker as well. Gayly colored CABELLERO is one of the most striking of all glads along with deep toned TIGERTONE a medium sized eyecatcher. REGINA continues to be one of our favorites while FIESTA always draws attention in the field.

A grand addition to the light salmon glads is the gorgeously ruffled BERMUDA to go along with clear toned and reliable CARMEN CORLISS and DELIGHT another ruffled beauty. Of note are the two fine butterfly type varieties ATTICA and ELF the latter a coming exhibition variety. On the show table VISION now leads this class with its many open florets and long flowerheads while PAREFAIT is taking over in the miniature section.

SALMON QUEEN is now the leader of the deep salmon class and seems destined to become one of the all time great glads. Other fine ones in this group are KOSMOS, the widely heralded Holland variety with up to 10 open florets, STARFIRE, the striking novelty, SALLY ROSE, with its distinctive color and fine exhibition type spikes, and MINARET, a beautiful glad with tall easy to cut spikes. Most unusual is the salmon and yellow combination of BOISE BELLE, a fine exhibition variety and CORAL ACE, the ruffled sport of BURMA.

The new FIREFLAME is a topnotch addition to the scarlet glads — a fine spikemaker with good color. Still leading this class are those great older varieties RED WING, SANS SOUCI, and DIEPPE — tops for both commercial and exhibition use. ALBERT SCHWEITZER looks capable of going all the way as a cut flower while DAVID WARR continues to be our best early variety.

The light pink glads continue to have some of the finest varieties in existence. Grand new ones are JILL with its tall spiks of smooth rosy pink, TEMPTRESS, a top ruffled exhibition variety, CORONATION a coming commercial with unexcelled color value, COUNTESS a tall stately that can open up to 10 at a time and gorgeous little DIMPLES. Reliable cut flower varieties are giant sized PINK PRIDE, PHANTOM BEAUTY, and tall majestic PALL MALL.

Becoming very popular is TARGET with its florets of creamy pink and red — a good one for everybody to grow. Also we like the frilled and fluted florets of strikingly colored RAGTIME, the huge KING SIZE, and the reliable spikes of CONTRAST. Fine cut flowers are SHEHERAZADE and WINDEMERE.

The deeper pink glads are still lead by SPIC & SPAN the leading variety of the decade with other outstanding varieties being giant sized BOUDOIR and GEM STATE the 300 sized exhibition variety that can open up to 14 blooms at a time. Impressive also are the older varieties such as PALOMAR a most reliable cutter, FRIENDSHIP, the well known commercial and gigantic PAUL BUNYON.

Among the light red glads REDCOAT impressed us with its precise formal spikes along with HILLTOPPER the dependable cut flower variety. Other noteworthy light red varieties are RED RADIANCE, the widely grown cut flower. RED TAPE with its ability to open 8-10 florets on good spikes and of course ROYAL STEWART the All American award winner.

A fine addition to the deep red glads is WINNEBAGO CHIEF a coming exhibition and cut flower variety while OSCAR, a good one from Holland, continues to perform well in the field. For exhibition HARRISBURGER is still the leader with old timer RED CHARM the best cut flower. RED PEPPER and UP TO DATE continue to give us tall large spikes in fine shades of red. We still like classy GARNET RUFFLES as the best 300 size deep red.

The black reds have excellent newer varieties in TOP HAT perhaps the best exhibition variety in this group, CONGO the giant of this color, and DARK BRILLIANCE also a fine exhibition variety. Others are well known ACE OF SPADES, the darkest in color, reliable BLACK PHANTOM, and FESTIVAL, a tall strong grower.

Among our favorites are the many and distinctive rose colored varieties. Excellent new ones are GINA, with its perfect spikes in a purest shade of clear rose, AMBITION, a gorgeous rose and cream exhibition variety, and OPALESCENT, the white with an overlay of rose. TRAVELLER continues to give us perfect spikes in a gorgeous shade of color while INNOCENCE is a topnotch cut flower in a most delicate shade of rose.

The distinctive varieties of the medium rose class are again a beautiful sight. Fine additions to our list are GYPSY ROSE a well named combination of deep rose with a deeper throat, GAY PAREE, a good grower with a distinctive petal edging, WILLOW ROSE, the 300 size exhibition variety, and JOYOUS the great All American selection. Others we like are ROSE SPIRE, with its tall spirelike spikes, WILD ROSE, the reliable cut flower variety, BURMA ROSE, the softer rose sport of BURMA, and gayly colored ROSITA a grand cut flower variety. Grown in large quantities for our florists is ELMERS ROSE.

Coming up fast in the deep rose glads is the grand spikemaker, DIRECTOR, in a rich shade of deep raspberry rose. Also popular are BRENDA which has large full spikes in a deep yet lively shade, AVENGER with its neat precise spikes, LYNNE HILL with its distinctive and unusual color, and LILA WALLACE a top notch variety.

The lavender glads have many varieties of outstanding merit. Among these are CATTELEYA, in one year a proven exhibition variety, HONEY LOU with its delicate color and ruffling, PRINCESS, one of our favorite varieties, and tall stretchy CAMPANILE, with its full easy cutting spikes of cleanest lavender. TYRONE and MONONA continue to be top cut flower varieties while most unusual are PAISLEY with its half moon of white and PIRATE CHIEF with its bold color effect.

Leading the purple varieties for all uses is KING DAVID with its straight spikes and fluted florets, while rows of tall and husky THE RAJAH are cut in quantity for our florists. Others we like are lustrous PURPLE BURMA with its rich florets of true purple, consistent ROYAL SCOT, a fine commercial, KAREN, the purple and yellow novelty, and silver edged TIMES SQUARE, the first to bloom in this color.

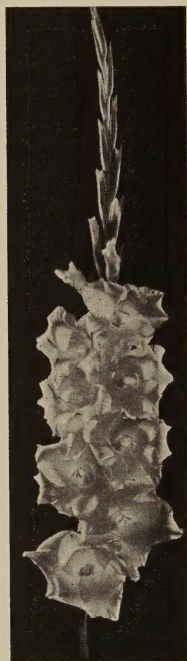

The light blue class now has many fine varieties such as BLUE DIAMOND, a beautiful shade of clear light blue on tall formal spikes, BLUE GODDESS, a healthy strong grower and MAJOLICA, the gorgeous porcelain blue with a deep violet throat. VIOLET CHARM continues to be the leader on the show table and for cut flower growing as well. HIGH LIFE and VENUS are beautiful cut flower varieties while the spectacular spikes of PINNACLE always command attention. Also of note is the new DARK EYES with its pale blue florets set off by a bold deep violet throat.

The deepest color of the dark blues is had by THOMAS A. STONE, a fine new one from Holland. BLUE PETER continues to give us outstanding spikes with 10 open at once and tall SALMANS SENSATION continues to dwarf all others in this group. Also catching our attention are tricolored BLUE DEVIL and the unusual color of BLUE CONQUEROR.

The many and varied smoky varieties always attract the smoky fans and those who like the unusual. A fine new one is SMOKY SUNSET with its shades of violet gray and smoky red. On the show table our own TAN GLO is still unrivalled with its tall perfect spikes although we were much taken by the nice spikes and attractive color of BLUE SMOKE a fine new one. COPPER LUSTRE is most popular with its huge spikes on a brownish tone; MESA MIST has a smooth pearl gray color, PRUNELLA grows tall spikes in a rich plum rose color, and two toned PERSIAN RUG always attracts attention. These are just a few of the many fine smokys we list.

Among the varieties in the group known as any other color are BROWN LULLABY, the leading exhibition variety, PAPOEA in a brownish red color, copper colored CHEROKEE, huge grayish buff SALAMANCA, and the smooth BUCKEYE BRONZE.

Also of note are the beautiful butterfly varieties from Europe's foremost hybridizer Konynenburg and Mark. They represent a new advance in medium sized gladiolus and are of particular interest for home use. Among the best of these are early blooming ARES a yellow and red beauty, FEMINA a gawdy clear salmon with a red throat bordered yellow, MELODY a gorgeous smooth rosy pink with a scarlet throat, ATTICA a soft rosy pink bordering a large yellow throat, and QUEENS PAGE an attractive cream and red combination. New ones are LITTLE DIAMOND a personal favorite of mine, GIPSY LOVE, a red throated beauty, TOPOLINO the gorgeous yellow and red variety, and DESIREE, an attractive deep scarlet with red markings.

Glad Gumption

I take this opportunity to express my sincere thanks for the many kind letters and cards and visits that I received this past summer during my illness. Only those who have had such an experience can fully appreciate the great uplift it gives to one's spirit and morale. Bless your gladiolus picking hearts!

This year's column consists mostly of odds and ends that I have come across during the year. No matter how hard we try, mistakes occur in our catalogue, so the following taken from an Australian gladiolus catalogue seemed rather amusing and unusual. "In case you find a mistake in this catalogue, please consider it was put there for a purpose. We publish something for everyone, and some people are always looking for mistakes."

Then again if you feel like singing, try this one to the tune of a familiar song.

There's a long, long trail a-winding
Into the land of our dreams,
Where among the seedlings growing,
There's a blue Glad that gleams;
There's a long, long time of waiting
Until our dreams all come true;
Till we find a GLADIOLUS
That's a real Delphinium blue.

The following appeared in our local newspaper, written by a columnist who undoubtedly grows glads but I won't vouch for it actually happening.

People can eat almost anything if they are hungry enough.

Take the woman who ate the chocolate covered dog biscuits disguised as hors d'oeuvres at a party in Montgomery recently, as a case in point. Then there is the Long-

meadow man who fell victim to almost the same situation.

It seems that he and his wife were playing bridge with another Longmeadow couple on this particular night. Apparently the possessor of a voracious appetite, the Longmeadow man began to feel the pangs of hunger very early in the evening and ventured into the kitchen in search of something to assuage that craving. He saw an antique chopping bowl filled with something that looked like small nuts so he scooped up a fistful and began popping them one by one into his mouth like a man eating peanuts.

"Boy those are good," he remarked.

This went on for some time. His partners noticed him chomping away with gusto but paid little attention, ignoring his frequent vocal outbreaks on how good the nuts were.

* * *

The next morning the lady of the house entered the kitchen and discovered the contents of the chopping bowl missing.

Horror-stricken, she sought out her husband, asked if he knew where they had disappeared. So she called the Longmeadow man who had been chewing away all night and asked him if he knew what had happened.

"Sure," he said, "I ate them. As a matter of fact they were good, too."

"Well," she replied, "you just ate up my whole collection of prize gladiolus seedling bulbs."

And, do you know, when he blushed with embarrassment he turned several shades of blue, lavender, pink, white, yellow as well as the traditional crimson. Regular technicolor show.

One sees all kinds of advertising. This sign was displayed prominently in a seed store whose competitor across the street was underselling them. "We have no quarrel with those who sell bulbs for less. They should know what they are worth!"

Did you know that a few of our gladiolus hybridizers have conquered outer space? I have heard several of them say that their seedlings were out of this world.

In me you see a happy man,
Contentment fills my cup,
I couldn't give up growing glads, so,
I give up giving up.

1960 Introductions

Lavender Gem

(Seedling 5300)

(Arenius '60) (460) 85

Lavender Gem is a rich medium lavender with a small deeper throat mark. 5' tall spikes are capable of holding 8-10 5 $\frac{1}{4}$ " florets open out of its 20-22 buds with 6 in color. Plant growth is very healthy with deep green foliage. Bulblet production and growth is better than average. We are particularly enthused over the cut flower qualities of Lavender Gem for those who are looking for a tall husky glad in this most useful color. Also we are sure that as stock gets around it will do more than its share of winning on the show table.

Baskets of Lavender Gem shown under seedling number 5300 at the Cleveland and Long Island International Shows received much favorable comment and stood up very well in spite of the distance they were transported.

A good stock of bulbs permits this low introductory price.

Leilani

(Kroon '60) (251) 75

Lovely clear soft rose with a creamy white center. A most delicate and appealing color. Lightly frilled florets with 6-7 open at once on 15-17 bud flowerheads. Although the flowerheads are perhaps not long enough to gain it fame as an exhibition type miniature it is invaluable as a decorative type. Among the miniature fans whose interest is in beauty and usefulness in arrangements; Leilani should prove of great interest. Leilani was runnerup for all America miniature honors in 1958 losing only because some judges felt its flowerhead was not long enough for an exhibition miniature.

Can't begin to tell you the pleasure we and the neighbors got watching the CROWN JEWEL COLLECTION as they bloomed — also the other new ones. They were all beautiful, and of course a lot was due to your generosity of extra bulbs. Mr. A. E. S., Poughkeepsie, N. Y.

From New York Customers:

Last spring you sent me four bulbs of YELLOW SPIRE. The only spike to hit a show was GRAND CHAMP of the annual Empire State Show against very tough competition. It was good enough to be the unanimous choice for GRAND CHAMP. The bulbs of SALMON QUEEN from you produced the GRAND CHAMP and RESERVE CHAMP at Elmira and R. C. at Alfred.

Join A Gladiolus Society

There are gladiolus societies in nearly all localities of the country composed of glad fans of all degrees—from the backyard gardener with a few bulbs to the commercial grower with many acres. With them you may receive the benefit of their publications with most up-to-date information of all kinds pertaining to gladiolus, good fellowship at their shows and meetings (who else can fully appreciate that 8" bloom in your garden?), and a chance to test your growing skill at the many gladiolus shows.

Our leading national society is the NORTH AMERICAN GLADIOLUS COUNCIL — Dues are only \$2.00 per year and entitle you to receive the N.A.G.C. bulletin — a quarterly publication of all the latest information pertaining to gladiolus — Membership secretary — Mr. Al Trippel, 904 East 7th Street, Auburn, Indiana.

Of international scope is the NEW ENGLAND GLADIOLUS SOCIETY devoted primarily to the home gardener and hobbyist in the gladiolus world. This year they are celebrating their 40th anniversary year of continuous operation as a gladiolus society. Its fine publications include a year book plus 4 quarterly magazines. Membership is \$4.00 per year. Write to New England Gladiolus Society, Inc., Horticultural Hall, Boston, Mass.

PETER PAN

STATUETTE

From Mystic, Conn.:

May I express my sincere thanks and appreciation for your generosity in filling my last fall's order for bulbs — you sure gave me plenty of extras. Cut flowers from your bulbs are in several swanky dining rooms about town throughout the glad season, and attract much favorable comment.

Mr. A. S. G.

From Wakefield, R. I.

Was more than pleased with the extras and overcount. As the ladies say at Christmas time, quote "It was just what I wanted!" Only in my case, I mean it! Thanks for everything.

Mr. R. W. B.

From Belmar, N. J.

Thank you for the many extras — they are the finest looking bulbs I have ever ordered!

Mr. A. S.

From McCanna, N. D.

Thank you for the extras as I certainly did not expect to receive any on an order from the wholesale list. All the bulbs were fine and you can expect an order from me next spring.

Mr. C. P.

From Minneapolis, Minn.:

I believe you have the most beautiful assortment of Glads! Each year I cannot resist buying a few more new ones! I know my order is small, but isn't when you folks get through with it.

Mrs. E. P. M.

From Indianapolis, Ind.

I'd like to comment on the fine bulbs and generous treatment I received from you last year.

Mr. C. K. K.

From Alstead, N. H.
